## TOP THREE COMMODITIES

Iron Ore

Minerals

Forest Products

Our operations support over 2,700 jobs in the state and add \$470M to Minnesota's GDP\*

Minnesota is an important gateway from Canada into the U.S. via Ranier and then south to the port city of Duluth on Lake Superior. Turning west near Longwood, WI, CN's track heads toward Minneapolis-Saint Paul, one of the top 15 markets in the U.S.

The North Star State is home to CN's Iron Ore Supply Chain, which brings taconite pellets from the Minnesota Iron Range mines to the CN docks in Duluth and Two Harbors. There, the pellets are loaded onto Great Lakes ships for transport to the lower Great Lakes.

CN's major facilities in Minnesota include a rail classification yard and railcar/locomotive repair shop in Proctor, a yard near the Two Harbors iron ore dock, and the Duluth iron ore dock itself. There is also a yard in Ranier where CN trains cross the U.S.-Canada border.

## Network Investments

Over the past decade, CN has invested about US\$790 million to build and maintain a safe and efficient network in Minnesota and to support our supply chain partners. The program focused on network upgrades, the replacement of rail and ties, plus maintenance of Great Lakes Fleet docks, bridges, crossings, culverts, signal systems, and other track infrastructure.

## Community Investments

In 2025, CN contributed to several Minnesota-based organizations, including:

**CITY OF PROCTOR FIRE DEPARTMENT** Support from CN helped equip the City of Proctor Fire Department with a K970 rescue saw, strengthening local emergency response and providing firefighters with critical rescue equipment.

**COLVIN TOWNSHIP FIRE DEPARTMENT** CN donated fire and rescue equipment to the Colvin Township Fire Department to help enhance local firefighting capabilities and improve emergency preparedness for the community.
