Our operations support over 1,100 jobs in the province and add \$252M to New Brunswick's GDP*

CN handles consumer goods and other intermodal traffic through our terminal in Moncton, where more than 250 CN railroaders live and work. Other CN facilities in Moncton include a major rail classification yard as well as automotive and forest products distribution centres and a CargoFlo® bulk handling facility. CN's network extends to the ports of Belledune and Saint John, which are both well positioned to play key roles in growing Canada's economy, bolstering supply chains and diversifying our trade partners and markets. Bulk and liquid bulk customers in the Grand Falls region will benefit from a newly-completed third-party transload facility.

In partnership with the Port of Saint John, CN is committed to enabling supply chains and facilitating business in Atlantic Canada. Our weekly CN IntelliGen Genset Service moves temperature-sensitive goods between Saint John, NB, and Brampton, ON. CN continues to develop rail service between northern New Brunswick and Moncton to capture new volumes and new customers in the province.

*Based on 2024 data

CN's Public Affairs and Public Works team was proud to support the Union of New Brunswick Municipalities' annual conference in Saint John, N.B. Our engagement included one-on-one interactions, a strong trade show presence and a breakfast presentation to hundreds of municipal leaders on rail safety.

Network Investments

Over the past decade, CN has invested about \$380 million to build and maintain a safe and efficient network in New Brunswick and to support our supply chain partners. The program focused on bridge upgrades, the replacement of rail and ties, plus maintenance of crossings, culverts, signal systems, and other track infrastructure.

Community Investments

In 2025, CN contributed to many New Brunswick-based organizations, including:

THE INTANGIBLE CULTURE AND HERITAGE For the fourth consecutive year, CN served as the presenting sponsor of Levee on the Lake, a folk music festival that celebrates community while highlighting Indigenous culture and artistic talent from across New Brunswick.

PORTAGE ATLANTIC CN contributed to programs that maintain and enhance health and wellness activities for vulnerable and marginalized youth facing substance abuse challenges, providing positive and healing experiences that promote recovery and well-being.

SKILLS CANADA CN supported initiatives that engage youth and their communities in skilled trades and technology careers, helping build awareness and pathways into in-demand industries.
