Our operations support over 14,100 jobs in the province and add \$3B to Quebec's GDP

Our extensive rail network stretches across Quebec. Montreal is home to CN's headquarters and over 3,200 employees as well as a major rail classification yard and repair shops. CN serves the Port of Montreal, where we handle growing numbers of import/export containers. We also have an intermodal terminal in Saint Laurent. Other CN facilities in Montreal include a logistics park, forest products, automotive and metals distribution centres, and a CargoFlo® bulk handling facility. Quebec City, where almost 350 CN railroaders live and work, boasts automotive and forest products distribution centres as well as a large rail classification yard.

Network Investments

Over the past decade, CN has invested about \$4.8 billion to build and maintain a safe and efficient network in Quebec and to support our supply chain partners. Projects included the development of several major technology projects. Maintenance projects focused on the replacement of rail and ties, plus upkeep of crossings, bridges, culverts, signals, and other track infrastructure.

CN supported the Montreal Children's Hospital Foundation's Caring for Kids Radiothon.
